The era of AI is now! Build your Dreams with Artificial Intelligence!
European Research Group on Artificial Intelligence, EURGAI.

Final announcement:

ISCAAI'2024 - 1st International Scientific Conference on Applied Artificial Intelligence

The European Research Group on Artificial Intelligence, EURGAI, is responsible for theoretical and applied research in Artificial Intelligence and organize two hybrid conferences per year. Given the rapid development of artificial intelligence, we organize the 1st hybrid conference in Szeged, Hotel Science, Hungary on **May 11, 2024.** You can join us in-person or virtually / online.

The best articles will be published in the special issue of scientific journal INDECS with impact factor. No participation fee for EURGAI researchers. The official language of the conference is English, all articles should be submitted in English.

TOPICS OF INTEREST:

- Self-Driving Cars and Flying Cars
- Intelligent robots and systems
- Scientometrics and citation analysis
- Academic ranking of world universities
- AI generated paper control and plagiarism check
- Neuro-Fuzzy-Genetic approach in engineering
 A young researchers' section will be organized at the conference.

- Computer science
- Cyber security
- Industry 5.0 and AI
- Internet technologies
- Medical sciences
- AI in administration

- Sport and AI
- Banking systems
- Smart cities
- Law sciences
- Art of AI
- Tourism
